

CAMDEN FRESH PRODUCE MARKET RULES

Macarthur Growers Pty. Ltd. was started to assist local farmers and offer an alternative way to sell their products. These rules were set to ensure this view is not lost. Some rules are set out by Camden Council in our D.A and Macarthur Growers has to ensure these rules are met.

Revised February 3rd 2024

1a.Grower:

To be a grower you must grow your own produce whether it is a crop / dairy/animal/ eggs etc. You must be growing the produce within the Sydney Basin, (*5 % can be outside the Sydney Basin this is at the discretion of the board*). If you are selling your product as organic you must display the appropriate certification.

We reserve the right to verify all produce/goods sold at this market.

1b.Selling Products from another grower / producer:

You can only sell other growers produce if there is not a grower (1a) at the market selling the same produce.

If you are selling another growers produce and a grower (1a) who grows the same produce is accepted into the market then you must cease selling the other growers produce.

At least 75% of produce on your stall must be produced by you; produce can be obtained from another grower / producer as above.

You will need to provide a letter of verification of purchase of the goods from the Grower / producer, showing name, address of property where produce is grown and phone number and the grower / producer's willingness to validate his produce. Products must not be purchased from a wholesaler/ manufacturer. *The grower must agree to allowing Macarthur Growers to access for farm visits to verify the products.*

Where seasonal conditions reduce your product lines, and where there are no other growers temporarily supplying the market with these products, other stallholders are permitted to source the product from other farms to keep a regular supply and variety at the market. There must be prior approval by the board to determine any shortfall and meet the criteria in 1b.

If you are found to be selling produce that is not approved and is sourced from wholesale markets etc. you will be asked to stop selling that product, remove it from your stall and place it out of sight of market consumers.

1c. Producers: To be a producer you must value add product.

Ingredients for value added products if not grown by you where possible must be sourced locally within the Sydney Basin (from a grower not a wholesale / retail) At least 50% should be local produce *if possible*

We reserve the right to verify all produce/goods sold at this market.
